

2022 Medicare Open Enrollment- October 15th thru December 7th

October 20, 2022

Medicare's Open Enrollment period gives people with Medicare the opportunity to make changes to their health plan or prescription drug plan, pick a Medicare Advantage plan, or return to Original Medicare (also referred to as Medicare Part A and Part B). Medicare plans can change their offerings and costs every year, and individuals' health needs can change from year-to-year, too. Now is the time for people with Medicare to review their coverage options and make a choice that best meets their health care needs.

As with all Medicare beneficiaries, be sure to check their benefits during every encounter to make sure that claims are billed with the current insurance information. Even if a patient stays with the same insurance (Aetna, Blue Cross, United Healthcare, etc.), be sure that their ID number, co-pays, and benefits have not changed since their last visit.
