

CMS Announces 6.4%-9.1% CPI-U Adjustments for DME in 2023-Significant Increase in DMEPOS Fee Schedule

December 20, 2022

The Centers for Medicare & Medicaid Services (CMS) released the 2023 Durable Medical Equipment, Prosthetics, Orthotics and Supplies (DMEPOS) Medicare fee schedule with an increase of 8.7 percent. This is larger than any annual Medicare increase in several years.

The increase is based on a 9.1 percent annual change to the Consumer Pricing Index for all urban areas from June 2021 to June 2022 and adjusted by an annual productivity adjustment or total factor productivity rate of 0.4 percent.

These increases will help DME suppliers who have been dealing with rising product and operational costs over that last two years.
