

# View Your ETIN Decertification Date in ePACES

---

## October 12, 2018

The electronic Provider Assisted Claim Entry System (ePACES) allows you to view the date the Electronic Transmitter Identification Number (ETIN) enrolled in ePACES will be decertified. It is important to recertify your ETIN annually in order to prevent any interruption in services such as eligibility verification, claim submission, claim status inquiry, and access to eMedNY remittances.

To view the ePACES ETIN Decertification date:

Login to ePACES at: <https://www.emedny.org/epaces/>.

1. Select "**Submitter**" under the Support Files section on the left-hand side of the page.
2. The ETIN and the Decertification date of the ETIN will display. (The ETIN must be recertified by this date.)

Please be sure to use this information to maintain your ETIN certification as a submitter with eMedNY in order to prevent interruption of service. *If your ETIN is about to expire, the form and instructions to recertify are here:*
