2019 MIMEDX Code Update

Cont'd

It is imperative that all providers ensure the following:

- ⇒ Update your chargemaster/systems to reflect the new HCPCS code effective 01/01/2019. Make sure the Q4131 is still active for 2018 in case you need to bill claims for dates of service prior to 2019
- ⇒ Update any superbill forms or orders that may have Q4131 code reflected
- ⇒ Check your specific payer contracts and fee schedules to make sure they converted the codes before you send 2019 claims
- ⇒ Ask your Field Reimbursement Manager for a new Insurance Verification Form. MIMEDX will continue to process all IVR forms.

Billing Examples:

1. EpiFix and EpiCord applied in 2018, bill Q4121 on claims submitted even if it after 12/31/2018.
2. EpiFix applied in 2019 should be billed with Q4186
3. EpiCord applied in 2019 should be billed with Q4187
