

Current CMS Provider Enrollment Application

April 30, 2019

Provider enrollment applications are occasionally updated. The most current copy can be found on the CMS website under Top 5 Resources, then select [CMS Forms](#).

Effective 5/1/2019, MACs will no longer accept the **CMS-855I (07/11) version**. Any **(07/11)** version of the **CMS-855I** application with a receipt date of **5/1/2019** or after will be returned with a request for the current [CMS 855I \(12/18\) version](#).

Important: CMS guidelines only allow retrospective billing date to be no more than 30 days prior to the receipt date of the submitted provider enrollment application.
