

MCR-Beneficiary Entitlement Date Errors Causing Incorrect Claim Denials

October 18, 2019

On October 09, 2019, an issue with the Medicare eligibility contractor was identified, resulting in incorrect claim denials. Medicare is informing providers of this claims processing error involving invalid entitlement dates for all beneficiary entitlement periods. This is causing claims to incorrectly deny based on invalid beneficiary entitlement.

Medicare will identify the impacted claims and complete a mass adjustment.
